

«Julebrev» from Leka 2019

Then the whole family is gathered here at Leka for Christmas.

We have had a nice autumn. Lots of nice weather. Some snow in December, but it's gone again. Jostein and Are has taken out sand from the harbour, put it at new plateaus near the stone cabins and cut trees around at the camp site. All boats except one Arvor 215 are inside our storage buildings. The Arvor may be used a couple of times.

2019 has been busy, but we also have had some time to travel/holiday. Anne Britt, Jostein og Are were at Gran Canaria in the beginning of January. In February Anne Britt and Jostein visited Hua Hin, Thailand. Oda is still working (a lot) in Stavanger.

During the summer we had more than enough to do with the tourists. Our visitors also had a nice time here fishing. Lots of nice fish was caught - 2 Halibuts more than 2 M were caught and released. Wil was, of course, one of the clever fishermen.

Anne Britt and our friend Elin went shopping in the beginning of October—by car to Oslo, then by Colorline to Kiel and Neumünster. Jostein and Wil went to „Jagd & Angeln“ in Markkleeberg by Leipzig.

By the end of October Anne Britt and Jostein decided to visit the Mineral fair in München. We went by Colorline and car to München and had a three days stay in Budapest as well (by plane from «Franz Josef Strauss»). Our visit in Budapest was at the same time as Putin visited Hungary - we only saw his cars.

Merry Christmas and a Happy New Year

Oda, Are, Anne Britt and Jostein
